WORK SHALL NOT BEGIN UNTIL THE PERMIT IS RECEIVED

DRIVEWAY REGULATIONS

1. A permit is required to install a driveway. No cost.
2. A site plan is required of proposed driveway depicting width, curb cut location, setback of the driveway to neighboring property lines, and the location of any swale created by the driveway.
3. A driveway shall have a minimum width of 10 feet.
4. All driveways must be finished with blacktop or concrete from property line to edge of road.
5. Stormwater and drainage. No permit will be issued for a driveway that may cause water drainage problems or ponding on the subject property or adjoining properties.
6. Irrespective of whether a permit under this article has been issued, it shall be unlawful for any person to maintain a driveway that causes water drainage problems or ponding on the subject property or adjoining properties. It shall be the responsibility of the property owner to abate any water drainage problems or ponding that may be caused by a driveway. All plans to abate water drainage problems or ponding caused by driveways are subject to the approval of the Code Enforcement Officers.
